

A JOURNEY IN ROMAGNA

THROUGH ITS WINES AND LANDSCAPE

Masselina

LA COLLINA DEI VIGNETI

The barrel cellar at Tenuta Masselina

WE ARE IN EMILIA ROMAGNA

Tenuta Masselina is an organic wine estate of 22 hectares, of which 16 are planted with vines and the rest are woodland. It is situated at Castelbolognese near Ravenna, 50 km southeast of Bologna on the ridge of hills between Imola and Faenza. Emilia Romagna is a land of time-honoured hospitality and the good life, where a tradition and culture of food and wine lie at the heart of our Region's identity.

WE HAVE A GREEN SOUL

Our vineyards are farmed **ORGANICALLY**, and the estate uses **SOLAR** and **GEOTHERMAL ENERGY** for its winemaking operations and for regulating the climate in the maturation cellars. **SUSTAINABILITY** and A **CIRCULAR ECONOMY** are part of our DNA. At Masselina, you will find an old farmhouse and barn, renovated in line with the highest standards of energy sustainability and refurbished to make them functional for the purposes of organising events and hospitality. Apart from wine, the heart of our activities, we promote wine tourism in our hills through dedicated projects in which our guests can enjoy various experiences in our beautiful countryside.

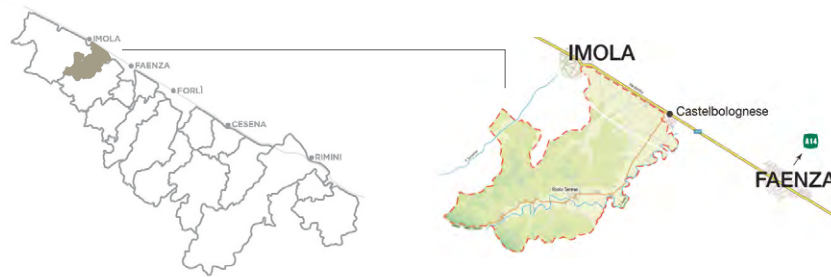

THE TERROIR

Tenuta Masselina is situated in extraordinary natural surroundings. We are in the "Serra" subzone, the most westerly of the Romagna Sangiovese D.O.C., characterised by an average altitude of 150 mt. above sea level and red clay soils that are reputed to be among the best in Romagna. The vineyards stretch eastwards, on terraces that face the Adriatic Sea in the area of the 'ancient red soils' and also on the slopes of the 'limestone soils' of the southern Romagna Apennines, sometimes on the side of gullies.

THE CHARACTER OF OUR WINES

The richness of our countryside is reflected in our **RED WINES**, which reveal notes of red fruits when we taste the Sangiovese and those of spices when we are talking about Cabernet Sauvignon.

THE WHITE WINES represent 60% of our production.

That's why we like to say:

MASSELINA IS THE ROMAGNA YOU DIDN'T EXPECT!

Among our tangy, iridescent whites, Albana, the characterful indigenous variety of Romagna, undoubtedly stands out.

To this cultivar we have devoted a vineyard of vines trained on the typical small local pergolas, a project of **VINIFICATION IN AMPHORAS** and, naturally, traditional vinification in the dry and sweet 'passito' styles included in the Romagna D.O.C.G..

The cellar for our amphora wine

OUR AMPHORA WINE

This Albana matures in terracotta amphoras produced in Faenza. The labels show the portraits of Renaissance ladies of the city, images that the International Ceramic Museum has kindly allowed us to use. Wine and its terroir are the central themes of the message we wish to convey.
